

Dear Football Family,

As part of the FAI's four year strategy from 2022-2025, **Nurturing Football Pathways for All** is one of our key strategic pillars and to this end, we embarked on a consultation process from May 2023 to January 2024, with the goal of developing a new Football Pathways Plan for the whole game of football in Ireland that will enhance pathways for all players to achieve their full potential.

Follow the consultation period, we have developed an overall Football Pathways Plan based on the feedback from phase 1 consultations. We now want to go back out to the football community to collaborate and consult on the detail of the strategy plan and develop the key areas into action plans.

Those involved in football development are encouraged to attend their regional consultation workshop and share their thoughts and insights. We want to get as much feedback as possible before the plan is launched and we want everyone involved in football to be part of the conversation.

Full details of the consultation workshops including dates, times and venues are included below.

Please **RSVP** for a consultation workshop that suits you.

We want as many people across the game to contribute and be part of the discussion so walk in's are also welcome to every session.

I want to thank you all for your ongoing support in the development of Irish football and I am looking forward to seeing as many of you as possible over the next few weeks, helping to shape a bright future for Irish football.

Regards,

Marc Canham
Director of Football
